

TAURUS™

Long Term Hemo-Dialysis Catheters and Kits

The TAURUS™ dialysis catheter is indicated for use in attaining long-term vascular access for hemodialysis therapy. Available in 14.5fr diameter, the TAURUS™ catheter gives clinicians high flow rates which decreases patient therapy times.

Features and Benefits

Radiopaque Polyurethane - Provides excellent visibility and biocompatibility.

Circle C Design - Optimizes blood flow and minimizes venous back pressure.
