

Health Line International Announces Strategic Commercial Leadership Appointments to Accelerate Growth of DualCap™ and Numantec Product Portfolio

Health Line International today announced the appointments of **Mark Jorgensen** as Senior Vice President, Commercial Operations and **Vincent Sabatino** as National Account Manager. These strategic additions to the commercial leadership team will drive the next phase of growth for the company's DualCap™ and broader Numantec product portfolio.

Mark Jorgensen **Senior Vice President, Commercial Operations**

Mark joins Health Line as Senior Vice President, Commercial Operations and will serve as a key member of the executive leadership team. Mark will play a critical role in aligning commercial execution with Health Line's long-term strategy to expand its presence across IDNs, hospital systems, and alternative care sites throughout North America.

Vincent Sabatino **National Account Manager**

Vince joins Health Line as National Account Manager and will focus on strategic Key IDN and hospital accounts, with additional GPO support. Vincent's focus will be instrumental in strengthening Health Line's presence within complex hospital systems and large healthcare networks, accelerating adoption of the company's infection prevention and vascular access solutions.

Positioning DualCap™ and Numantec for Accelerated Growth

These appointments reflect Health Line's commitment to scaling its commercial infrastructure following the acquisition of the DualCap™ and expansion of Numantec's product portfolio.

“With a strengthened commercial leadership team, Numantec is positioned to increase market share in vascular access, infection prevention, and infusion therapy. Our goals are to deepen relationships with national accounts and IDNs, optimize pricing and drive sustained, profitable growth” said Elliot Faulkner, CEO of Health Line and Country Manager USA of Numantec.

“As we enter an exciting time in the Numantec Group, Mark and Vincent bring complementary strengths in executive commercial leadership and national account execution. Their experience will be instrumental in accelerating adoption of DualCap™ and expanding the Numantec portfolio across key U.S. healthcare systems.” said Gabriele Giovanelli, CEO of the Numantec Group.
